

# STRENGTHENING GCC'S DEFENSE CAPABILITIES

Dubai, UAE -- Inventechs Technology, a leading engineering solutions provider in the GCC region, proudly announces its participation as a Gold Sponsor at the International Defence Exhibition & Conference "IDEX 2025" at the Abu Dhabi National Exhibition Centre. As Sensata Technologies' official distributor and business partner in the GCC region, Inventechs will leverage this premier platform to demonstrate its comprehensive range of high-technology solutions and engineering capabilities.

"Our Gold Sponsorship of IDEX 2025 reflects our deep commitment to advancing the defense technology landscape in the Middle East," said Mr. Abdulla Al Mheiri, CEO at Inventechs Technology. "As Sensata's authorized distributor in the GCC region, we are uniquely positioned to provide both world-class products and local engineering expertise to meet the evolving needs of our clients. Our significant presence at IDEX 2025 underscores our leadership role in shaping the future of defense technology in the region."

At IDEX 2025, Inventechs will showcase:

1. Advanced sensing solutions and control technologies from Sensata
2. Customized engineering solutions for defense applications
3. Comprehensive technical support and consultation services

Visitors to the Inventechs will have the opportunity to:

1. Engage with technical experts about specific project requirements
2. Experience live demonstrations of key products and solutions
3. Learn about Inventechs' engineering capabilities and support services

Visit Inventechs during IDEX 2025 from 17-21 February to explore our comprehensive range of engineering solutions and discuss how we can support your technical requirements.
